ELLEPOT® AUSTRALIA

Ellepot H-202

Semi-Automatic Ellepot Machine | Technical Data Sheet

Overview

Combining full flexibility with high capacity, the H-202 is a semi-automatic Ellepot machine that produces both Jumbo Ellepots and small Ellepots in the range of Ø15–80 mm. Its double production line can be fitted with two different diameters for flexibility, or the same diameter for high-speed production, making it well suited to higher-scale operations.

Key Features

- Pot diameters from Ø15 to Ø80 mm – Jumbo and small Ellepots
- Two production lines for mixed-size or high-speed single-size production
- High capacity: up to 18,000 pots per hour
- Adjustable pot length up to 240 mm
- Can be connected to the Multiflex for automatic set-up

Specifications

Parameter	Specification
Machine type	Semi-automatic, double production line
Pot diameter	15 – 80 mm (Jumbo and small Ellepots)
Pot length	Adjustable up to 240 mm
Capacity	Up to 18,000 pots per hour (depends on pot size and peat)
Production lines	2 – configurable with two different diameters or the same diameter
Automation	Can be connected to the Multiflex for automatic set-up

Upgrade Option – Ellepot Tray Filler 2

For an automatic set-up, the H-202 is compatible with the Ellepot Tray Filler 2, an individually designed upgrade that gives growers a significant competitive edge and great cost savings. With add-ons such as the dibbler and seeder, a completely hands-free propagation process can be achieved.

Available Ellepot Tray® Pot Diameters

Ø15	Ø20	Ø23	Ø24	Ø25	Ø30	Ø32	Ø35	Ø40	Ø45	Ø50	Ø60	Ø65	Ø70	Ø80
